

VETERAN GOLFERS' REPORT 2021

This past year saw us experience another year of disruption due to Covid-19.

Some Interclub events were able to be held under Covid safe format in compliance with Health regulations. The 2021 Shoalhaven Week of Golf also proceeded with reasonable attendance.

We have continued to financially assist the Club during the year.

A donation was also made on behalf of the Vets to the Cancer Council Longest Day challenge supporting the "Big Heads" in our local event.

In February 2021 we recommenced our Vets golf program and were able to hold our 2021 Championships. However, we have not yet held our usual presentation due to our venue capacity restrictions and look forward to doing so later in the year now that these restrictions have been eased.

Our AGM was eventually held in December 2021 with a very poor attendance.

We look forward to re-establishing the camaraderie once enjoyed by all our Vets. This will be achieved by bringing back two tee starts and some regular shotgun starts enabling members to enjoy each other's company after the game.

Special thanks to the small band of committed Vets Committee for their support during these challenging times.

Thanks also to Damian and his team for their continuous care and excellent presentation of our course.

To Greg Collins and his team, we always extend hearty appreciation for your care and consideration.

Best wishes to all.
